

Table 4a: Red List Category summary for all animal classes and orders

IUCN Red List Categories: **EX** - Extinct, **EW** - Extinct in the Wild, **CR** - Critically Endangered (includes CR(PE) and CR(PEW)), **EN** - Endangered, **VU** - Vulnerable, **NT** - Near Threatened (includes LR/nt - Lower Risk/near threatened), LR/cd - Lower Risk/conservation dependent, **DD** - Data Deficient, **LC** - Least Concern (includes LR/lc - Lower Risk, least concern).

* **CR(PE) & CR(PEW):** The tags 'Possibly Extinct' and 'Possibly Extinct in the Wild' have been developed to identify CR species that are likely already extinct (or extinct in the wild), but require more investigation to confirm this. **NOTE** that these are not IUCN Red List Categories; they are tags that can be attached to the CR category to highlight those taxa that are possibly extinct. They are included in the above table to indicate a plausible upper estimate for number of recently extinct species on The IUCN Red List.

For the full list of CR(PE) and CR(PEW) species in the current IUCN Red List, see Table 9.
